paperback. Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 239 Publisher: Science Pub. Date :2011-01-01 version 1. Semin. Xiao Fei editor of the General Physics Experimental Course. according to the Ministry of Education promulgated the science and engineering universities of physics experiment teaching basic requirements (2008). combined with the construction of college physics experiment written in many years of practical experience. and all materials in four chapters. a total of 40 experimental projects. namely the physical experimental data processing. basic experiments to improve the integrated design of experiments and experiment. The informative material. close to the teaching practice. principles and clearly describes the experimental method. taking into account the systematic teaching content and advanced. while imparting knowledge and ability. quality. innovation and cultivate the spirit of both. both to ensure the implementation of teaching the basic requirements. but also to provide students a self-learning space. General Physics Experimental Course can be used as colleges and universities. adult schools. vocational professional of ordinary materials science and engineering. Experimental teaching management books. but also as a laboratory technician. or other related courses teachers reference books. Contents: Chapter 1. physical measurements of experimental data processing and error analysis 1.1 1.2 1.3 Evaluation of measurement uncertainty of the basic methods of processing experimental data using Origin 1.4 software processing the experimental data in Chapter 2 Introduction to basic experiment experimental experiments to measure the length of 2.2 2.1 Experimental measurement of the density measurement of velocity and acceleration 2.3 2.4 experimental study of simple harmonic motion experiments measured 2.5 torsion moment of inertia of a rigid body experiments measured 2.6 Tensile Young's modulus of the metal wire 2.7 Experimental determination of heat capacity of liquid experiments 2.8 electronic components 2.9...
