BRAND NEW, Ecovillages: A Practical Guide to Sustainable Communities, Jan Martin Bang, The Ecovillages movement is a worldwide network of communities which strive to integrate a supportive social environment with a low-impact way of life. Examples include Kibbutz, Camphill communities and others based on frameworks such as Permaculture. This book explores the background and history to the Ecovillages movement, and goes on to provide a comprehensive manual for planning, establishing and maintaining a sustainable community. Issues discussed include leadership and conflict management, house design, building techniques, farming and food production, water and sewage, energy sources and alternative economics. In the final chapter, the author brings it all together in a step-by-step guide. Throughout, this book is packed with handy tips, useful insights and sage advice.
