Createspace, United States, 2013. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Is it really possible for you to achieve double digit investment returns in ANY economy? Yes! How? Most people go around searching and hoping that someday they will find the right investment. Whether it is investing thier IRA s, 401(k) s or their regular money investors want to reach their financial goals sooner vs. later. The problem is most investors go from one investment to another hoping that the next investment will give them the returns they want or worse, eventually stay in the same low return investments month after month hoping it will somehow work out financially for them. Unfortunately the unforgiving NEW ECONOMY that we have makes this kind of traditional investing dangerous to your wealth and overall financial future. Darin Garman, a former Iowa bank owner and board of director member, shares his insights on the handful of investments he has experienced that can produce consistent double digit returns in ANY economy. Darin s experiences as bank owner and board of director member as well as his 20 plus years of personal investing triumphs (and failures) lends even the paranoid investor real shortcuts to ot only financial success but achieving the kinds of double digit returns that most investors just dream about.
