Effectiveness of Filling Ephemeral Pools at Kesterson Reservoir: Kesterson Program Upland Habitat Assessment; Kesterson Reservoir Final Cleanup Plan (Classic Reprint)

By Unknown Author

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Effectiveness of Filling Ephemeral Pools at Kesterson Reservoir: Kesterson Program Upland Habitat Assessment; Kesterson Reservoir Final Cleanup Plan The State Water Resources Control Board, in Order No. Wq 88-7 issued July 5, 1988, directed the Bureau of Reclamation (Reclamation) to fill all ephemeral pool areas, on a priority basis, to six inches above the rising ground water by January 1, 1989. The objective of the Boards Order was to eliminate surface pools formed by rising ground water prior to the 1988-89 winter season. This report presents a summary of the filling activities at Kesterson Reservoir and an evaluation of the effectiveness of the filling in the elimination of ground water pools at the Reservoir. Description of Pilling Operation Contract Summary A letter contract was issued to Dutra Construction Co., Inc. of Rio Vista, California on July 6, 1988. The contract specified the filling of an estimated 589 acres with an estimated 723,400 cubic yards of material. Ephemeral pools were to be filled on a pond priority basis, with ponds 1, 3, 4, and 6 to be filled...
