Water Survival Guide: (FREE Bonus Included) Water Purification, Filtration, Storage, and Extraction in the Wilderness A backpacking trip to the woods sounds like a lot of fun, but if you were to run low on water you would not be a happy camper by any means. The deadliest risk that anyone hiking through the wilderness may face is running out of water. Under normal conditions we can only go three days without water, and under more strenuous conditions such as walking through rugged wilderness paths in the hot sun, our limit is reached even faster. In order to safely make your way through the wilderness you will have to know how to not only pack enough water with you, but know how to purify and filter alternate sources of drinking water in case your own supply runs out. This book goes over the most fundamental aspects of water storage, extraction, and filtration in an easy to understand manner. Buy this book and never run out of water again! This book will teach you how to: Know what kind of water to pack Know where to find water in the wild Filter and purify your own water supply Extract water from rocks Extract water from plants And a lot more!
