PLANNING AND CONTROL USING MICROSOFT PROJECT 2013 PMBOK GUIDE

Eastwood Harris Pty Ltd, Australia, 1900. Spiral bound. Book Condition: New. 5th Revised edition. 277 x 234 mm. Language: N/A. Brand New Book. The book is designed for users of earlier versions to upgrade their skills and for new planners to learn the software. It starts with the basics required to create a schedule, through resource planning and on to the more advanced features. A chapter is dedicated to the new functions and it outlines the differences from the earlier versions throughout the book. A Microsoft Project user guide and training manual written for Project Management Professionals following the PMBOK Guide Fifth Edition who wish to learn how to schedule projects in a single project environment with or without Resources with Microsoft Project. The book is packed with screen shots, constructive tips and is suitable as a training course handout, for learning the software or as a reference book. The book contains workshops with solutions at the end of each chapter for the reader to practice the skills taught in the chapter. Microsoft Project 2013 is an extensive software update with many new functions and as a result this is a complete rewrite of the author's previous book. It is primarily a Microsoft Project book and has been written for people learning to use Microsoft Project in a project environment applying the PMBOK Guide Fifth Edition processes. It aims to teach readers how to plan and control projects created within the software package and stays focused on explaining how to use Microsoft Project to schedule projects by: Explaining which PMBOK Guide processes the software will support and which it will not support. Concentrating on the core functions required to plan a project. Presents workable solutions to real day to day planning and scheduling problems and contains practical advice on...
