By Reflect Publishing

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 110 pages. Dimensions: 8.5in. x 5.5in. x 0.2in. Have you ever forgotten your password to a website? Have you ever then requested a password reset, gone to check your inbox for the email, but then realise you've forgotten the password to that too? If so, then this is the perfect book for you! This journal has space to record a website name, url, username, password and notes for over 300 websites! In recent years, hacking has become a huge problem for our security! We're constantly being told that we need to use a unique and difficult password on every website to limit the potential damage, but the problem is we then have to somehow remember them! While we're also advised not to write them down, that rarely stops us, and if we were going to write them down anyway, we may as well do it in a way that we can keep safe and in one place, rather than scribbled on scraps of paper littered around the house or office! Save yourself some stress with this alphabetised Password Journal! This item ships from La Vergne, TN. Paperback.
