FIELD MANUAL FM 4-40 QUARTERMASTER OPERATIONS CHANGE 1 APRIL 2014

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 60 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. Field Manual FM 4-40 Quartermaster Operations Change 1 April 2014 describes Quartermaster operations at all levels to include supply and field service functions. By reading this FM, commanders, staffs, and Soldiers will have an understanding of Quartermaster mission, organizations, and functions and will be better prepared to exercise them in an operational environment. More importantly, this field manual serves as the bridge between this force and the next, discussing units and systems that are being fielded now and into the near future, including Global Combat Support System Army (GCSS-Army). While Army transformation to modularity is complete, our evolution will continue as we adjust the Army to new design for the Army of 2020. To support our force, we must focus ourselves on this new environment and apply the same innovation and professionalism that make us successful. Our most recent and significant advancement is the fielding of the Global Combat Support System Army. GCSS-Army is an enterprise resource planning tool that provides supply managers across the Army a single database for visibility, anticipation, requisition, and demand satisfaction. Never before has there been a single system that provides the quartermaster or logistician the capability to directly influence the Army supply system and positively affect the outcome of combat operations. As we progress through continued evolution, Quartermaster units aided by advancements such as GCSS-Army will continue to provide support to the operational force and positively influence the outcome on the battlefield. This item ships from La Vergne, TN. Paperback.
