Reviews

This ebook could be well worth a study, and superior to other. It really is basic but unexpected situations inside the 50 % of your ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.

I hate to read! is a statement that librarians and teachers frequently hear from young adults. In *Reaching Reluctant Young Adult Readers*, the author addresses the issue of aliteracy—the condition when one has the ability to read but chooses not to in young people of ages 10 - 15. These students do not read for pleasure and they read only when forced to do so through class reading assignments, a pervasive problem that affects grades and that can affect future success. Fortunately, librarians and teachers can cultivate a love of reading in even the most reluctant reader through the strategies, tools, and resources offered in this book. Books whose characters and themes are appropriate on an intellectual and maturity level for this age group are profiled. Making culturally relevant books available to Asian, Black, and Latino students to foster their reading enjoyment is also addressed. A complete handbook for librarians and teachers to confront and overcome aliteracy in young adults. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Hardcover.
