William B Eerdmans Publishing Co. Hardback. Book Condition: new. BRAND NEW, New Proofs for the Existence of God: Contributions of Contemporary Physics and Philosophy, Robert J. Spitzer, With the incredible popularity of recent books championing agnosticism or atheism, many people might never know that such books almost completely ignore the considerable evidence for theism uncovered in both physics and philosophy over the past four decades. New Proofs for the Existence of God responds to these glaring omissions. / From universal space-time asymmetry to cosmic coincidences to the intelligibility of reality, Robert Spitzer tackles a wealth of evidence. He considers string theory, quantum cosmology, mathematical thoughts on infinity, and much more. / This fascinating and stunning collection of evidence provides solid grounding for reasonable and responsible belief in a super-intelligent, transcendent, creative power standing at the origins of our universe.
