The Battered Woman Syndrome: Perspectives in Criminal Law and Clinical Psychology

By Naira Roland Matevosyan

Createspace, United States, 2014. Paperback. Book Condition: New. 254 x 203 mm. Language: English . Brand New Book ***** Print on Demand *****.Testimony on battered woman syndrome (BWS), as a widely used self-defense strategy, has been accepted in all state courts of America. However, courts often hold that expert testimony on the BWS is inadmissible in a presented evidence where (1) it is irrelevant and immaterial to the issue of whether defendant acted in self-defense at the time of the battery; (2) the subject of the expert testimony isn t within the understanding of the jury; (3) the BWS is not sufficiently developed as an accepted scientific knowledge to warrant testimony under the guise of expertise; and (4) its prejudicial impact outweighs its probative value. For the first time in the legal scholarship, an attempt was made to use the Grounded Theory Model to analyze narratives and facts of twelve court holdings on BWS, to reach a facile consistency in defendants sworn-in motivations on reasonableness and imminence of danger that made them kill their spouses in self-defense, also to find correlations between the expert testimonies of BWS, counts of charges, and the verdicts or dispositions rendered. Through inductive coding of...
