Peter Lang Publishing Inc, United States, 2013. Paperback. Condition: New. New edition. Language: English . Brand New Book. Beginning in the mid-2000s, celebrity gossip blogs exploded into the media market, challenging the traditional dominance of print tabloids as the primary space of celebrity dish and reconfiguring the audience s role in celebrity culture. This book is a critical and historical examination of the impact of the technological and textual shifts engendered by new media on the use of celebrity gossip as a form of everyday cultural production. Examining six popular American gossip blogs - Perez Hilton and Jezebel among them - at a peak moment of influence in the mid-2000s, this book explores how the technological affordances of new media enable the merging of the social practice of gossip with the practice of reading, creating an evolving participatory and community-based media culture that continues to transform celebrity culture in the digital age.
