Excerpt from Circular and Catalogue of the Trustees, Faculty and Students: Announcement of Lectures, Session 1857-8 The Faculty have from their own personal means, invested nearly in buildings and apparatus, and feel that they are on a sure and independent footing, and have no fears as to their ultimate and permanent success, for they. Are determined to merit the good opinion of all men, by a course true and honorable to themselves and the profession. They are induced to make these remarks prefatory to the state ment now about to be set forth, which is, that they will not consider anything less than two winter courses of lectures as a full course of study, consequently, cannot accept the tickets of summer schools, from the fact that the student can be graduated in eight or even six months study. Medical Circulars distinctly require that a student of medicine shall study three years with a respectable practitioner, and attend two full courses of lectures, (meaning winter courses.) Now, if we admit a winter-and summer. Course to be sufficient, we can have no guarantee that a sufficiently ex tended course of study has been pursued, whilst under the old system of winter courses, a student could under no circumstances be graduated in less than fourteen or. Sixteen months. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
