EGYPT'S LABOR MARKET REVISITED (PAPERBACK)

The American University in Cairo Press, Egypt, 2009. Paperback. Condition: New. Language: English . Brand New Book. This book offers a groundbreaking research methodology applied to an analysis of labor issues in Egypt. This volume is a sequel to a 1998 publication by the Economic Research Forum (ERF). Its true significance lies in the contributors reliance on fresh data and solid analytical techniques used to examine a wide spectrum of pertinent issues concerning the labor market in Egypt. The range of topics includes labor supply, employment and unemployment, youth labor market school-to-work transition, internal and international migration, earnings and inequality, and gender and education. The papers in this volume are the very first research available based on data collected in the Egypt Labor Market Panel Survey of 2006, a follow-up to the Egypt Labor Market Survey of 1998. The panel design used for collecting data is state-of-the-art methodology in the labor field, and has never before been implemented in Egypt on this scale.
