MEASUREMENT AND CALCULATION OF MULTICOMPONENT-DIFFUSION AND REACTION IN CATALYST PARTICLES, EFFECT OF THE CATALYST PORE STRUCTURE

Cuvillier Verlag Jan 2010, 2010. Taschenbuch. Book Condition: Neu. 211x146x17 mm. Neuware - A realistic diffusion system, multi-component diffusion, accompanied by a relatively simple reaction, a single reaction with simple molecules, is investigated experimentally using commercial pellets at mild conditions. The motivation was to elucidate the effect of pore structure for simultaneous diffusion/reaction systems in general. The results can be used to investigate the multi-component interactions between different components, to determine an optimum pore structure and/or to check if the...

Reviews

This book will be worth buying. Better then never, though i am quite late in start reading this one. You may like how the blogger compose this publication.

-- **Mrs. Kylie Oberbrunner II**

It in a of the most popular publication. It is actually rally intriguing throug looking at time period. Your daily life span is going to be change the instant you total reading this publication.
