My actual study of the teris all took place during the north-east monsoon months, and I had no opportunity of studying the effects of the westerly winds on the coast. The action of the north-east monsoon on the teris seemed inappreciable, the breezes being, as a rule, quite gentle, but when the north-east wind is violent the coast dunes are wet either from rain or from clouds of spray, and the sands are immoveable. R. B. F. 1 Preliminary steps have been taken towards the cutting of a ship canal across Rameswaram island, which will allow of large ships avoiding the long voyage round Ceylon. the sea races to the south with a great current like a rapid mountain stream and a perceptible fall of several feet. It is quite easy to understand that both these antagonistic movements must pile up great masses of...
