

Applying Materials State Awareness to Condition-Based Maintenance and System Life Cycle Management: Summary of a Workshop (Paperback)

By Defense Materials Manufacturing and Infrastructure Standing Committee, National Materials and Manufacturing Board, Division on Engineering and Physical Sciences

National Academies Press, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book. In August 2014, the committee on Defense Materials Manufacturing and Infrastructure convened a workshop to discuss issues related to applying materials state awareness to condition-based maintenance and system life cycle management. The workshop was structured around three focal topics: (1) advances in metrology and experimental methods, (2) advances in physics-based models for assessment, and (3) advances in databases and diagnostic technologies. This report summarizes the discussions and presentations from this workshop.

Reviews

A must buy book if you need to adding benefit. It really is simplified but unexpected situations in the 50 percent of your book. Its been developed in an exceptionally straightforward way and it is merely soon after i finished reading through this pdf where in fact transformed me, modify the way i think.
