Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Manual of Bookkeeping and Banking The publication of Meservey s Book-Keeping by single and double entry, in 1875, was the signal for a new departure in the study of book-keeping. Simple, natural, practical, and, at the same time, scientific and comprehensive, from the very first, it was cordially received, extensively adopted, and almost unanimously commended by teachers and school boards, as a text-book specially adapted for use in public and private schools. From time to time the work has been revised, dates and prices have been changed, and additions have been made, as new conditions seemed to demand; and evidently the book was never more popular than it is at the present time. But there has been an increasing demand for a text-book, developed on similar lines, but a little more difficult, and somewhat more comprehensive, for use in high schools and academies. To meet this want, the following pages have been prepared. The book is not a revision, nor a rewriting of the former work, but is entirely new, designed for more advanced classes and higher schools. The author has embodied in this treatise the results of an experience of many years, in the counting-room, in the public schools, and in the commercial college. It is not claimed that all the business forms employed by the accountant are to be found in this treatise; but it is claimed that it contains just what every boy and girl ought to know in regard to the science of accounts and the art of recording business transactions, before leaving the public school.
