McGraw-Hill Education - Europe. Hardback. Book Condition: new. BRAND NEW, Strategic Value Investing: Practical Techniques of Leading Value Investors, Robert R. Johnson, Thomas Robinson, Robert Johnson, Benjamin Graham referred to it as his "margin of safety." Seth Klarman favors it over all other investment methods. Warren Buffett uses it to make millions for his investors. It's called value investing, and you can make it work wonders for your portfolio. All you need is money to invest, a little patience - and this book. Strategic Value Investing reveals everything you need to know to build a world-class portfolio using value investing as your north star. Written by experts on valuation and financial analysis, this comprehensive guide breaks it all down into an easy-to-implement process. The authors explain the ins and outs of determining when a stock is undervalued, then purchasing it and selling it for a profit when the rest of the world learns what you knew all along. The authors teach you how to establish a dispassionate value investing philosophy tailored to your needs. Equally important, they provide the tools you need to adhere to this often contrarian approach regardless of your emotions or crowd sentiment. Get in before the crowd - and get out when the price is right with Strategic Value Investing. Praise for Strategic Value Investing: "A book that has much the same character as a good value investor: calm, disciplined, with a grasp both of broad theory and of how to apply it." (John Authers,...
