Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Ecological Investigations Upon the Germination and Growth of Forest Trees The history of our country reveals the fact that material industrial progress is largely in direct proportion to scientific research and invention. This is especially true in the agricultural pursuits. The various governmental bureaus, our state universities and agricultural colleges, and our many agricultural experiment stations are intimately connected with and responsible for the progressive agricultural development of our country. These institutions form a vast ganglionic intellectual organization; they are rapidly becoming the centers of a new agricultural system and, working from these centers outward, they are gradually touching every phase of agricultural activity. Forestry has joined the ranks of the great industries in developing the investigative side of the business and the establishment of forest experiment stations and a forest products laboratory by the Forest Service of the United States Department of Agriculture has been the first step in this direction. It has become the business of these stations and this laboratory to study the fundamental laws governing the life of the forest and...
