# SYLLABIC PROCESSES IN PERSONS WITH PHONETIC-PHONOLOGICAL DISORDERS

Condition: New. Publisher/Verlag: AV Akademikerverlag | Insights from Verbal Imitation | Neurogenic speech disorders offer the possibility to observe the cognitive interface between phonological and motor-articulatory mechanisms. Two syndromes are of particular interest: Apraxia of speech (AOS) and Conduction aphasia (CA). Both occur after a stroke in the left cerebral arteries and affect relevant speech-motor regions. AOS is considered as disorder of speech motor planning while in CA traditionally the lexical-and-postlexical phonological encoding is disturbed. This study tries to get...
