Excerpt from English: Determining a Standard in Accurate Copying Further correction of the results in the office was necessary because it was found that some teachers had called some of the errors Errors in Spelling and other teachers had called the same errors Wrong Words Used. For example: Should of written in the place of for be considered a misspelling or a wrong word used? In general, such cases were determined by the context and the grammatical construction. If the con text did not admit of the correct use of the word, even though the spelling was correct, it was called a mis spelled word.
