

Build Stuff with Wood: Make Awesome Projects with Basic Tools (Paperback)

By Asa B. Christiana

Taunton Press Inc, United States, 2017. Paperback. Condition: New. Language: English . Brand New Book. Build Stuff with Wood is a true beginner s guide to woodworking, aimed at anyone who is interested in the craft but has only a few tools and no real idea where to start. The idea behind the book is to begin with a basic toolset (a circular saw, chop saw, cordless drill, jigsaw, and a few hand tools) and then add tools as you go. Step-by-step projects are presented showing what you can build with that tool (plus the basic toolset). For example, adding a router to your tool arsenal allows you to gracefully round edges on tables and shelves; buying a simple doweling jig opens up the world of joinery. As well as power tools, hand tools are also introduced. In all, 14 fun projects will be presented, all built with just a few woodworking tools and off-the-shelf lumber.

Reviews

This publication will never be effortless to begin on studying but extremely entertaining to learn. It is probably the most incredible publication I have gone through. I realized this ebook from my dad and he suggested this publication to learn.

-- Austin O'Connell

An exceptional pdf and the typeface employed was fascinating to see. Better than never, though I am quite late in starting to read this one. Your daily life span will be transformed as soon as you start looking at this publication.

-- Dale White
