Reviews

It is just one of the most popular ebooks. It usually fails to price an excessive amount of. You will not really feel monotony at any moment of your time (that's what catalogues are for about when you check with me).

Little, Brown Book Group, United Kingdom, 2012. Paperback. Condition: New. Language: English . Brand New Book. From her days as a child reader in the 1940s, through her time at Harvard, where she studied the Victorian ancestors of the form, and later as a writer and reviewer, Margaret Atwood has always been fascinated with science fiction. Here she brings together three Ellmann lectures: Flying Rabbits begins with her early rabbit superhero creations, and goes on to speculate about masks, capes, weakling alter egos and Things with Wings; Burning Bushes travels into Victorian otherlands and beyond; and Dire Cartographies investigates Utopias and Dystopias, including Atwood s own ventures into those constructions. In further essays Atwood explores and critiques the form, and elucidates the differences - as she sees them - between science fiction proper, and speculative fiction , not to mention sword and sorcery , fantasy and slipstream fiction . In Other Worlds is a must.
