

U.S. Climate Change Technology Program Strategic Plan (Paperback)

By U S Climate Change Technology Program

Createspace, United States, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.The U.S. Department of Energy (DOE) today released the Climate Change Technology Program (CCTP) Strategic Plan, which details measures to accelerate the development and reduce the cost of new and advanced technologies that avoid, reduce, or capture and store greenhouse gas emissions. CCTP is the technology component of a comprehensive U.S. strategy introduced by President Bush in 2002 to combat climate change that include measures to slow the growth of greenhouse gas emissions through voluntary, incentive-based, and mandatory partnerships, advance climate change science, spur clean energy technology development and deployment, and promote international collaboration. This Plan was inspired by the President's vision to harness America's strengths in innovation and technology to transform energy production and use in ways that significantly reduce greenhouse gas emissions over the long term, U.S. Secretary of Energy Samuel W. Bodman said. This Strategic Plan is unprecedented in its scope and scale and breaks new ground with its visionary 100-year planning horizon, global perspective, multi-lateral research collaborations, and public-private partnerships. The CCTP Strategic Plan organizes roughly \$3 billion in federal spending for climate technology research, development,...
