

Proceedings of the International Conference on Linear Statistical Inference LINSTAT 93

By -

Springer, Netherlands, 2012. Paperback. Book Condition: New. 240 x 160 mm. Language: English . Brand New Book ***** Print on Demand *****.The International Conference on Linear Statistical Inference LINSTAT 93 was held in Poznan, Poland, from May 31 to June 4, 1993. The purpose of the conference was to enable scientists, from various countries, engaged in the diverse areas of statistical sciences and practice to meet together and exchange views and results related to the current research on linear statistical inference in its broadest sense. Thus, the conference programme included sessions on estimation, prediction and testing in linear models, on robustness of some relevant statistical methods, on estimation of variance components appearing in linear models, on certain generalizations to nonlinear models, on design and analysis of experiments, including optimality and comparison of linear experiments, and on some other topics related to linear statistical inference. Within the various sessions 22 invited papers and 37 contributed papers were presented, 12 of them as posters. The conference gathered 94 participants from eighteen countries of Europe, North America and Asia. There were 53 participants from abroad and 41 from Poland. The conference was the second of this type, devoted to linear...

Reviews

Undoubtedly, this is actually the greatest job by any author. This can be for those who state there was not a worthy of studying. I am delighted to inform you that this is actually the greatest publication i actually have read within my very own daily life and could be he greatest book for ever.

-- **Perry Reinger**

This book is very gripping and fascinating. Of course, it can be perform, nevertheless an amazing and interesting literature. I am just pleased to explain how this is basically the finest publication i have go through within my very own lifestyle and might be he best pdf for possibly.

-- **Prof. Beulah Stark**
