Taylor Francis Ltd, United Kingdom, 2013. Hardback. Book Condition: New. New.. 236 x 158 mm. Language: English . Brand New Book. The semiconductor industry is a vital industry for military establishments worldwide, and the control of, or loss of control of, this key industry has enormous strategic implications. This book focuses on the globalization of the strategic semiconductor industry and the security ramifications of this process. It examines in particular the migration of the Taiwanese chip industry to China as part of the globalization of production processes, and the extent to which such a globalization process poses security challenges to the United States, China and Taiwan. Transcending disciplinary boundaries between international political economy, security studies, and the history of science and technology, this multidisciplinary work provides an in-depth understanding of the globalization-security nexus, and disentangles the key policy issues connected to a potential explosive flashpoint in world politics today.
