Forgotten Books, 2018. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from Seven Factors of Education Our shelves are loaded with the books of unlearned men. I have in mind two remarkably original works of recent times; they have justly brought their authors great renown, yet they both fail at the critical point, where the authors extend from their specialties and attempt to reach out for broader conclusions in neighboring fields of knowledge - conclusions which are rendered totally invalid, almost ridiculous, thru deficiency in biological and anthropological learning. Learning necessarily occupies a vast amount of time, and it is a false modernism which depreciates its place in education. How near-sighted are certain reactions against it; how absurd the fads of certain ultra-modern schools; how out of time the premature exclusive specialization; how inadequate the extreme laboratory system even in the university, how futile to attempt to educate exclusively thru research.
