Not illustrated. 1880 Excerpt: .is compactly arranged by interchanging the headings of the columns containing these elements at the top and bottom of the page, and reading the top reading for courses from 0 to 45, and the bottom reading for courses from 45 to 90. This table may be used for a great number of problems depending for their relation on the relation of the several parts of a rightangled triangle, and since all the relations between any two quantities may be expressed as functions of some angle in terms of the sine, cosine, or tangent; it may be used, in fact, as a general proportional table. In these Tables the course is found at the top of the Table, when under 4 points or 450; but at the bottom of the Table, when it exceeds 4 points or 450. The first column contains the distance to 60 miles,...
