China coal as the main primary energy situation will not change in the future for a long time. is also growing with the growing strength of coal mining, the environmental pollution problems caused by the development and utilization of coal. Therefore, great efforts to develop clean coal technology, and has a very important practical significance, is the only choice of the current fossil energy development. In recent years, with the economic development and the enhancement of the concept of environmental protection, the support of relevant national policies, the area of ??clean coal made rapid economic development. China is the world's only investment in clean coal technology in the whole industry chain, and has become the world's largest clean coal market, and a variety of state-of-the-art clean coal technology in the world...
