Createspace Independent Publishing Platform, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The logic appears simple. The Danes are happy. The Danes engage in hygge. Therefore hygge makes them happy. If we do hygge then we ll also be happy. However the Danes also happen to have one of the highest rates of mental illness in Europe. WTF? This book will tell you all you need to know about hygge. But, if you re looking for a hygge self-help book, this book will be no help at all. If you have no concept of what a candle is and are looking for a candle user guide, then you ve come to the wrong place. That said, Hygge. Huh? still manages to pack in an impressive 26 separate mentions of the word candle . It s an absolute must for the candle fan in your household! There are also a couple of pathetically rudimentary recipes thrown in for good measure. It s quite simply a book for everyone! Hygge. Huh? is the most important book about hygge you will ever read. Probably.
