

Bringing Outdoor Science in: Thrifty Classroom Lessons

By Steve Rich

National Science Teachers Association. Paperback. Book Condition: new. BRAND NEW, Bringing Outdoor Science in: Thrifty Classroom Lessons, Steve Rich, When it's just not possible to take students out to explore the natural world, bring the natural world to the classroom. Clearly organized and easy to use, this helpful guide contains more than 50 science lessons in six units: Greening the School, Insects, Plants, Rocks and Soils, Water, and In the Sky. All lessons include objectives, materials lists, procedures, reproducible data sheets, ideas for adapting to different grade levels, discussion questions, and next steps. Almost all the needed materials are inexpensive or even free (such as leaves and rocks), and if you do get the chance to venture outside, the lessons will work there, too. By using Steve Rich's follow-up to his popular book *Outdoor Science: A Practical Guide*, you can introduce students to everything from bug zoos to the Sun and stars without ever needing to pull on a jacket.

Reviews

It is one of my personal favorite publications. It is actually really fascinating through reading through period of time. It has been printed in an extremely basic way in fact it is just after I finished reading through this ebook by which basically transformed me, change the way in my opinion.

This kind of book is every little thing and made me searching ahead of time plus more. This is certainly for anyone who states that there was not a well worth reading through. It has been developed in an remarkably straightforward way in fact it is simply following I finished reading this pdf in which really modified me, alter the way I really believe.
