Reviews

Great electronic book and valuable one. It really is simplistic but surprises within the fifty percent from the book. Its been printed in an extremely simple way in fact it is merely right after i finished reading this publication by which in fact modified me, change the way i really believe.

OVERCOME HEART DISEASE WITH EECp: THE ONLY NONINVASIVE WAY TO HEAL YOUR HEART (PAPERBACK)

CELESTIAL ARTS, United States, 2005. Paperback. Condition: New. Language: English . Brand New Book. If you suffer from or are at risk for heart disease, surgery and invasive procedures are not your only options. There is a noninvasive, safe, and painless treatment that is clinically proven to be more successful in reversing the effects of the disease, improving blood circulation, and strengthening the cardiovascular system, all for a fraction of the medical costs. This groundbreaking procedure is called enhanced external counterpulsation (EECP), and it has been the best-kept secret in medicine-until now.Doctors have discovered that invasive procedures that treat specific artery blockages offer only a short-term fix for the underlying problem: poor blood flow. Using blood pressure cuffs to help push blood through the body, EECP promotes the development of new blood vessels to naturally bypass coronary blockages, restoring the flow of healthy, oxygenated blood to the heart. As a result, EECP reduces or eliminates symptoms such as chest pain, fatigue, and shortness of breath; increases energy and stamina; and returns heart patients to activities they thought they had given up forever. In HEAL YOUR HEART WITH EECp, Dr. Debra Braverman dispenses critical information about this revolutionary treatment.EECP patients are less likely than bypass, angioplasty, and stent patients to have a heart attack or require hospital stays.EECP is the ideal weapon in the fight against heart disease for patients battling obesity, high cholesterol, high blood pressure, diabetes, and more.EECP brings none of the risks of surgery or invasive procedures and is provided in an outpatient setting.EECP is approved by the FDA and Medicare and covered by most private insurers, and it is appropriate for nearly all heart disease sufferers, regardless of age, size, or other medical conditions.
