Brill, Netherlands, 2016. Paperback. Condition: New. Language: English . Brand New Book. Suriname, located on the Atlantic coast of northeastern South America, is a relatively small country compared to most other South American countries. It nevertheless has a rich avifauna. By the end of 2014, 746 species (including 760 subspecies) were known to occur in Suriname. Most of the land area of Suriname is still covered with tropical rainforest and the country should be a must-visit for birdwatchers. Suriname is even mentioned as being the best country to spot certain neotropical species. Surprisingly, few birders visit Suriname. The main reason given is the lack of a handy pocket guide that can easily be carried in a backpack. The Field Guide to the Birds of Suriname (with its 107 color plates) tries to fill this gap. In addition to species accounts, data on topography, climate, geology, geomorphology, biogeography, avifauna composition, conservation, and hotspots for bird watching are given. So, why delay your trip to this beautiful and friendly country any longer. Suriname with its rich avifauna awaits you! A revised and updated edition of this work will be published in 2018.
