Del Rey. Paperback. Condition: New. 352 pages. Dimensions: 8.2in. x 5.5in. x 0.7in. In the gripping sequel to *Sleeping Giants*, which was hailed by Pierce Brown as a luminous conspiracy yarn . . . reminiscent of *The Martian* and *World War Z*, Sylvain Neuvel's innovative series about human-alien contact takes another giant step forward. As a child, Rose Franklin made an astonishing discovery: a giant metallic hand, buried deep within the earth. As an adult, she's dedicated her brilliant scientific career to solving the mystery that began that fateful day: Why was a titanic robot of unknown origin buried in pieces around the world? Years of investigation have produced intriguing answers and even more perplexing questions. But the truth is closer than ever before when a second robot, more massive than the first, materializes and lashes out with deadly force. Now humankind faces a nightmare invasion scenario made real, as more colossal machines touch down across the globe. But Rose and her team at the Earth Defense Corps refuse to surrender. They can turn the tide if they can unlock the last secrets of an advanced alien technology. The greatest weapon humanity wields is knowledge in a do-or-die battle to inherit the Earth . . . and maybe even the stars. Praise for *Waking Gods*: Kick-ass, one-on-one robot action combines with mind-bending scientific and philosophical speculation. Series science-fiction fans will enjoy this follow-up filled with unexpected revelations and a surprise finale. *Booklist* Pure, unadulterated literary escapism featuring giant killer robots and the looming end of mankind. In a word: unputdownable. *Kirkus Reviews* (starred review) Stunningly good . . . If you read just one science fiction book this year, then *Waking Gods* is the perfect choice. *Fresh Fiction* Sheer escapist fun. *Shelf Awareness* This item ships from multiple locations. Your book may arrive...
