University Press of the Pacific, United States, 2005. Paperback. Book Condition: New. 276 x 210 mm. Language: English Brand New Book ***** Print on Demand *****.From the moment of conception until death rhythm is as much part of our structure as our bones and flesh. No corner of medicine - from the laboratory testing of new drugs and procedures to clinical and public health programs - is likely to remain untouched by the new explorations into biological rhythms. These...
