UNDERSTANDING LOW BACK BIOMECHANICS

Condition: New. Publisher/Verlag: LAP Lambert Academic Publishing | Through the relation between spinal stiffness and back muscle activity | Approximately 60-80% of people experience low back pain at least once in their lifetime. Given the poor correlation between radiological findings and low back pain, physicians and physiotherapists usually palpate patients with low back pain to assess the severity of back pain and to make differential diagnosis. However, this clinical assessment has been criticized for its subjectivity and low reliability. This...

Reviews

This book might be worth a read, and superior to other. Of course, it really is engage in, still an interesting and amazing literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
