Kay Scarpetta has been training at the Dover Port Mortuary, mastering the art of virtual autopsy - a groundbreaking procedure that could soon revolutionise forensic science. And it is not too long before these new skills urgently need to be put into practice. A young man drops dead, apparently from a heart condition, eerily close to Scarpetta s home. But when his body is examined the next morning, there are stunning indications that he may have been alive when he was zipped inside a pouch and locked inside the cooler. When the revolutionary 3D radiology scans reveal more shocking details about internal injuries unlike any Scarpetta has ever seen, Scarpetta realizes that this is a case of murder - and that she is fighting a cunning and uniquely cruel enemy. Now it is a race against time to discover who and why before more people die. But that time is running out .
