Createspace Independent Publishing Platform, United States, 2009. Paperback. Book Condition: New. 224 x 150 mm. Language: English . Brand New Book ***** Print on Demand *****.There are numerous free algebra videos on YouTube that help in solving algebra homework problems. The purpose of this book is to catalog some of these videos and review them in a consistent manner. The videos cover the basics of algebra normally taught in Algebra 1 and Algebra 2 classes such as polynomials, exponents, factoring and simplifying, inequalities, solving linear equations, word problems, the quadratic equation, solving nonlinear equations, functions, graphing, rational expressions, and complex numbers. In the book, there is an emphasis on the two important topics of word problems and solving equations. The videos reviewed range from short videos of 1 or 2 minutes each, to long videos approaching 30 minutes each. The book makes it easy to decide on which videos to view and what videos in general are available.
