

Fritjof Capra and the Systems View of Life: Short Biography, Book Reviews, and Comments (Paperback)

By Peter Fritz Walter

Createspace Independent Publishing Platform, 2015. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Fritjof Capra and the Systems View of Life (Great Minds Series, Volume 3)-2017 Revised, Updated and Reformatted Edition-is a passionate study about the great contemporary physicist and a review of all of his published books, including extensive quotes. The author considers Fritjof Capra as one of the most important authors on new science and systems research. He found Capra s Tao of Physics in 1985, at a time when his life was in a complete reorientation. He compares the impact of the book on his psyche and his personal evolution with his discovery of the I Ching and Taoism, as well as the writings and psychoanalytic teaching of Francoise Dolto (1908-1988). The author considers as genius Capra s unique gift to formulate and explain complex scientific and philosophical insights and interrelations in a way that the educated reader can understand. He sees certain parallels in Capra s life in the lives of Albert Einstein and Wilhelm Reich who, like him, were from Germanic origin and after their immigration to the United States only wrote and published in English. The author especially...

The publication is simple in go through preferable to fully grasp. I am quite late in start reading this one, but better then never. It is extremely difficult to leave it before concluding, once you begin to read the book.
