Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Most books written about the British Army contain stories about the Infantry, Royal Artillery, Army Air Corps and/or its Armoured Regiments. They generally tell stories of how brave the protagonists within each Regiment were and how their actions usually changed the course of each battle or firefight. Great reading for most schoolboys and aspiring 2nd Lieutenants and of course these stories are deservedly told in vast volumes of books. But stories of who actually supported these Regiments and got them to the right place with the right equipment is rarely told, probably because stories of the supporting Corps and their soldiers are deemed to be too routine and dull for anyone to read. But If it wasn t for these so called REMF s (Rear Echelon Mother F\*\*\*\*\* s) then Britain s fighting forces would be about as much use as a Regiment of traffic wardens. They might look good in uniform but when it comes to defeating the enemy they can t do it without vast amounts of fuel, ammunition, rations, communications, medical support etc....
