Brand New Book ***** Print on Demand *****.Excerpt from The Wheat Situation: March-April, 1944; Ws-80 The sale of wheat for feed by the Commodity Credit Corporation has been reduced in recent months. 1] With a continuation of the allocation plan wheat for feed will be distributed equitably depending on actual needs. The bringing in of wheat from Canada will be augmented soon with the opening Of navigation, and it will be possible for CCC to build up a reserve. The quantity of wheat sales by 000 largely determines the magnitude of feeding. The quantity fed on farms where grown probably will be below the 10 - year average of 117 million bushels, because of the Opportunity to sell at favorable market prices. However, some wheat for feed will be purchased at full market price. Considerable effort has been directed toward the use of materials other than wheat in the making of alcohol. Exports are largely in the form of flour, and it is for this reason that we will continue to have sizable export commitments even though we are on a net import basis.
