John Wiley and Sons Ltd, United Kingdom, 2017. Paperback. Condition: New. 1. Auflage. Language: English . Brand New Book. The economies of the eurozone countries are plagued by multiple crises, which cast major doubts over the future of the euro. In this engaging new book, leading economist Malcolm Sawyer argues that the entire policy framework of the eurozone was fundamentally flawed from its foundation. He shows how these design faults intensified the crisis and are now locking in perpetual self-defeating austerity. Sawyer proposes a bold alternative agenda for reviving the continent s economic prosperity and saving the euro. He argues, however, that the required solutions are certain to encounter huge obstacles. He therefore concludes that Europe faces a bleak economic future, blighted by low growth, high unemployment and social division. This major contribution to one of the key economic debates of our time will be essential reading for everyone interested in Europe s future.
