*An incredibly great book with perfect and lucid answers. Better then never, though i am quite late in start reading this one. You will not sense monotony at whenever you want of the time (that's what catalogues are for relating to if you question me).

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Pursuant to a congressional request, GAO provided information on the Department of Defense s (DOD) Office of the Director, Operational Test and Evaluation s (DOTE) use of contractors. GAO found that: (1) DOTE policies and procedures for managing contracts for operational test and evaluation (OTE) support complied with existing guidelines; (2) DOTE took measures that were consistent with regulations requiring agencies to guard against contractor conflicts of interest; (3) DOTE use of the Institute for Defense Analyses as a contractor for OTE support was permissible under federal regulations and appropriate, since the Institute was less likely than private contractors to have conflicts of interest; (4) of the \$12.5 million DOTE obligated to it during fiscal years 1987 through 1989, the Institute used about \$2 million for 51 consultants and 2 subcontractors; (5) of those 51 consultants, 2 had been involved in overseeing programs that they subsequently performed operational test assessments on for DOTE; and (6) in four instances, the Institute performed both acquisition and operational testing functions on the same weapon systems. GAO believes that disclosure of a consultant s prior work would be consistent with the regulation requiring disclosure of federally funded research and development centers affairs.
