

Fear of Chords (Paperback)

By Peter Mealy

Createspace Independent Publishing Platform, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Fear Of Chords presents a simplified approach to learning chord theory on the guitar. The book was written for guitarists who already play, but do not read music, or care to study jazz theory, but wish to add color to their existing chord vocabulary. All of the concepts are displayed alpha/numerically so, reading music is not a prerequisite to getting value from the book. Fear of Chords uses the five basic chord forms to address moveable chords, the number system, scale/chord relationships, chord families, chord extension and embellishment, triads, slash chords and, in the final chapter, a basic tutorial on jazz chords and concepts. Sample pages may be viewed at.

Reviews

This book is great. it absolutely was writtern quite properly and beneficial. Its been written in an extremely basic way and it is merely after i finished reading through this ebook in which basically changed me, affect the way i really believe.

-- **Leopold Schmidt**

Here is the finest publication we have read right up until now. It is actually writter in easy words instead of difficult to understand. Its been written in an remarkably easy way in fact it is only right after i finished reading this book in which basically changed me, modify the way i really believe.
