For those entering today's market, it doesn't take long to figure out that winning and losing in the real world is far different to passing or failing in school or university. There are fewer compliments, your grades don't land your dream job, and there's no such thing as a participation trophy. The aim of this book is to bridge the gap between what we are taught in higher education and the skills we need to thrive in the real world. It's Not Just My Opinion: This book represents opinions from 45 thriving young pros, whom I've interviewed personally. Exactly What You're Getting: First and foremost, this isn't just another business book. At 72 pages, you can read and digest all the content in one day. There's no beating around the bush and each chapter gets straight to the point (literally within the first sentence), this is my promise. The issues mentioned in this book are the most relevant and consistent themes across the responding body. These include: - The number one challenge you'll face as a young pro. Page 20. - The biggest mistake you can make your early career, and how to avoid it....
