Trafford Publishing, United States, 2012. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.This story began in 2015 in a country that is divided politically, socially, and economically. Sound familiar? So consequently, the national government is paralyzed to act on anything. Suddenly the ozone depletion rates reached a critical level that allows a flood of ultraviolet light upon the planet causing millions of skin cancer deaths and suffering. The ultraviolet rays become so intense that it causes genetic mutations in newborn children. But what is unique about this man-made natural disaster is that it only affects people with lighter skin and people of European descent. The nature of the crisis forces people of European descent, people with lighter skin, and all the people of the world to re-examine long held prejudices regarding people with very dark skin. The ozone depletion crisis of death and great destruction becomes the instrument in which racism is addressed for once and for all. There is something mysterious about when humans go through death and destruction it seems to bring the very best out of humanity, more love, more caring for one another. Likewise, through the ozone crisis, a crisis that affects skin color becomes the catalyst in which racism is forever destroyed. See how the ozone depletion problem leads mankind to better racial understanding-and the brotherhood of-all mankind is boldly proclaimed in-all-his public discourses-as-a-result-of-the-crisis. It is my most fervent hope that humanity will realize that we are truly- our brother's keeper: May mankind be elevated to the highest level of consciousness without death and destruction forcing him in that direction. However, I fear that our time-as a species, for- getting it right; is running out-IF-we continue to remain deaf to our higher ideals, that calls upon us to reflect...
