Reviews

Completely essential read ebook. It is among the most awesome book i actually have read. I am very happy to explain how this is basically the greatest book i actually have read in my individual existence and might be he best pdf for possibly.
(Prof. Alexandro Runolfsson)

HOW BIG IS OUR UNIVERSE MATHEMATICAL ANALOGIES

CreateSpace Independent Publishing Platform. Paperback. Condition: New. This item is printed on demand. 66 pages. Dimensions: 7.8in. x 5.0in. x 0.3in. Ever wondered how big our universe is? Dr. Anwar Hamdi, one of the greatest thinkers of our time, uses accurate mathematical analogies to make the astronomical sizes of the universe graspable. Find the shocking facts: More than 400 trillion Khufu pyramids can fit inside planet Earth. Our Earth orbits the sun at a speed 60 times faster than a bullet. Our solar system is 23 times faster than the speed of an F-15 fighter jet. It would take more than 19 centuries to count the stars in our galaxy. The sun gives humanity 22,000 times its energy need. A day is longer than a year on the planet of love. A planet that can float on water. Enjoy the engaging topics: The cockroach and the jet Earth's stamp on the Jupiter envelope. Toy ship in the Nile. A lentils-stuffed watermelon. The entire human race fails to lift one drop of water. And much more. This item ships from La Vergne, TN. Paperback.
