It is no secret that Hemorrhoids is a condition that most, if there are even any of us, will want to be associated with! As a matter of fact, when the name is mentioned, as in the word Hemorrhoids most of us would rather sit in a bath of cold beans than discuss the condition in public! Yes, that is how bad it is. And did you know that Hemorrhoids affect up to 50 of persons that are over 50 years of age and that this varies from a brief short-lived episode to a continuing debilitating condition? Now, the question that one might want to ask is what really are hemorrhoids? And to put it another way, what can be attributed to be the cause of it anyway? Well, to give answers to that, we may need to understand what hemorrhoids are in the first place. To start with, I want you to know that inside the anus, there is a soft layer called Mucosal Cushions which are soft and very vascular, however, when the areas of these cushions become enlarged, and the blood vessels bulge, they are called Hemorrhoids. As a matter of fact, when this happens and care is not taken, the blood vessel could burst and this may now lead to bleeding of the hemorrhoids and may also cause other complications . Now, the truth is that, it is possible to suffer from some symptoms and not know it. Well, by that I mean you may not be able to identify or even associate it with a particular condition. However, since we are focused on hemorrhoids here, hopefully, you won't experience all the...
