Brand New Book ***** Print on Demand *****.Excerpt from Studies in Modern Socialism and Labor For years I have had a deepening conviction that true economic principle and right economic action were intimately related to Christian morality. As a result of this conviction, I ventured a series of addresses on social questions before audiences of business men and workmen. Through the courtesy of the Providence Daily Journal and the Providence Evening Telegram, which published in full, and of the Providence Daily Star and the Boston Herald, which published copious extracts, these addresses were widely circulated. At the suggestion of many readers, of various classes, and from various sections of the country, the substance of the discussions is embodied in the present volume. As I have always written for ears, rather than for eyes, I ask of my reader the privilege of talking with him in the following chapters. Such a familiar method will be, at least, easier for me - perhaps not without added interest for him. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
